PROFESSIONAL SUMMARY

Software Engineer with experience in AI, full-stack, mobile, and data-driven application development. Led the development and Google Play Store publication of **Spashta Nudi**, a healthcare application built in collaboration with the **All India Institute of Speech and Hearing (AIISH)**, Mysuru.

EDUCATION

Visvesvaraya Technological University

Mysuru, India

Bachelor of Engineering in Computer Science and Engineering(Artificial Intelligence)

Dec. 2022 – June 2026

- CGPA: 9.45/10.0

EXPERIENCE

Java Full Stack Intern | *Pentagon Space Pvt. Ltd.*

Jan 2026 – Present

- Developed enterprise-grade full-stack applications using Java, Spring Boot, MySQL, HTML, CSS, and JavaScript.
- Designed RESTful APIs, layered backend architecture, and relational database integration using Spring Data JPA and MySQL.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, Dart, SQL, C

Frameworks: Spring Boot, Flutter, React, Next.js, Tailwind CSS, TypeScript, Firebase, Flask, HTML5, CSS3

AI & Data: Machine Learning, Computer Vision, PyTorch, OpenCV, Flask, Power BI, Tableau, DAX

Databases: MySQL, MongoDB, Firestore

Tools: Git, GitHub, VS Code, Google play console, Canva

SELECTED PROJECTS

Spashta Nudi – Parent-Assisted Speech Therapy Platform | *Flutter, Firebase, Cloud Firestore*

- Led the development and Google Play Store publication of a Flutter healthcare application in collaboration with the **All India Institute of Speech and Hearing (AIISH)**, Mysuru.
- Built bilingual clinically structured Kannada articulation modules with audio-guided pronunciation, cloud-based progress tracking, dark-light theme toggle, and gamified learning for home-based speech therapy.
- Implemented Firebase Firestore, responsive Flutter UI, offline learning, and personalized therapy monitoring.
- **Repository:** [GitHub](#) | [Play Store](#)

Enterprise AI Chatbot Platform | *Java, Spring Boot, MySQL, REST APIs, OpenRouter AI*

- Developed a Spring Boot AI chatbot integrated with OpenRouter AI for real-time conversational responses.
- Built a layered backend using Spring Data JPA, MySQL, REST APIs, and a responsive web interface.
- **Repository:** [GitHub](#)

AI-Based Weed Detection using Computer Vision | *Python, PyTorch, OpenCV, Flask, HTML, CSS*

- Developed a ResNet18-based computer vision model for multi-class weed classification using PyTorch and Grad-CAM.
- Built an end-to-end deep learning pipeline and deployed the model using Flask for real-time prediction.
- **Repository:** [GitHub](#)

Heart Disease Analytics Dashboard | *Power BI, DAX, Power Query, Python, Microsoft excel*

- Built an interactive Power BI dashboard using DAX and Power Query to analyze heart disease trends and support data-driven insights.
- **Repository:** [GitHub](#)

ACHIEVEMENTS & CERTIFICATIONS

- Published **Spashta Nudi** app on Google Play Store in collaboration with the All India Institute of Speech and Hearing (AIISH), Mysuru. Try the app
- Maintained a CGPA of **9.45/10** in B.E. Computer Science and Engineering (Artificial Intelligence).
- Google AI Essentials — Coursera [Verify](#)
- Machine Learning Operations (MLOps): Getting Started — Coursera [Verify](#)
